NATURAL
STONE

HOME WISH

Studio

Home Wish is a tableware brand that creates and transforms natural stone into jewelry for your home. We create unique and singular pieces in the most various sizes, colors, and shapes, just like a work of art. We believe that dressing and decorating the table goes far beyond choosing the pieces that make up the setting: each object must be unique.

We seek to create authentic products, respecting the shape and color of the raw materials and working with small details to keep their essence untouched, since it is precisely that essence that'll transform each of these pieces into a one-of-a-kind object. Our pieces also stand out for being full of charm and for being versatile, seamlessly beautifying everyday life in the city, countryside, or the beach.

Home Wish's goal is to bring a little bit of bossa into the lives of each of our customers who love to decorate, host, and set the table in a memorable and inviting way.
